

Healthy Buildings Approved as a BOMA 360 Ambassador

We are pleased to announce that as of August 2, 2011 The BOMA 360 Performance Program Council has approved Healthy Buildings as a BOMA 360 Ambassador.

The BOMA 360 Ambassadors Program helps vendors and suppliers to the commercial real estate industry connect with customers by serving as a valuable resource to BOMA International and to BOMA 360 applicants and designees.

Healthy Buildings has helped clients achieve BOMA 360 certification and is now proud to be an Ambassador of the program. The BOMA 360 Performance Program is a groundbreaking building designation program that evaluates properties in six major areas: building operations and management; life safety/security/risk management; training and education; energy; environment/sustainability; and tenant relations/community involvement. The BOMA 360 Performance Program takes a holistic approach to evaluating a building's operations and management and benchmarks a building's performance against industry standards. The program comes at a critical time, as building owners and managers are looking to differentiate themselves in a demanding market.

For more details about the BOMA 360 Ambassador Program and BOMA 360 Performance Program, please visit <http://www.boma.org/getinvolved/boma360> or contact Healthy Buildings at <http://www.healthybuildings.com/contact>.
