

Healthy Buildings Becomes Con Edison Commercial & Industrial Rebate Market Partner

We are delighted to announce that as of July 5, 2011 Healthy Buildings has been formally approved as a Con Edison Commercial & Industrial Market Partner.

We are working with our commercial and industrial clients to capitalize on incentives and rebates for conducting energy efficiency studies and installing high-efficiency gas and electric equipment.

To help our clients save money and energy we will work with you to achieve:

- Payment of up to 50 percent of costs, with a cap of \$67,000, for an energy-efficiency study of steps you can take to increase your gas and electric efficiency
- Rebates for eligible upgrades, including lighting fixtures; LED exit signs; chillers; packaged heating, ventilation, and air-conditioning systems; motors; and water and steam boilers
- Performance-based incentives for installing high-efficiency equipment for custom projects not eligible for rebates

For a free consultation, please contact Gwen Sheinfeld, Director of Corporate Sustainability at: gsheinfeld@healthybuildings.com or 917-828-1293.
